TRANSCRIPTION

JAMES: I'm James. I wear a smart uniform at work. I go to the airport and prepare the plane for the passengers. Then I meet the passengers. I give them drinks and food. I talk to them. I love my job because I can visit different countries!

ANNA: I'm Anna. I work in a school. There are thirty-five children in my class, and they are all seven or eight years old. They are funny and friendly, but they are often naughty too. Classes finish at three o'clock, but I always have to prepare classes and check the children's work in the evenings.

PHIL: I work in a big hotel. I prepare food for the guests. I also have to order food and put it in the correct cupboard, fridge or freezer. All the food must be safe and the kitchen must be clean. I like my work because I'm always busy. But one day, I'd like my own restaurant. Then I can make new, exciting meals.

LUCY: I wear a uniform at work – a t-shirt and black trousers. It's not very smart, but it's comfortable. I am on my feet all day in the store! I have to help customers, work at the cash desk and get sneakers from the room upstairs. And I have to tidy up because there are often balls and clothes on the floor of the store. My work isn't very interesting. I hope to get a different job soon!

DAN: I sometimes work in the day, and sometimes at night. I work with children here at the hospital. I give them their medicine and check that they are okay. Some of the children are very sick and that's really sad. I play with the children and talk to their families. It's great when they get well and can go home.
